SHORT COURSE PART TIME

CAPTURED

We offer a creative environment that is second to none.

PSC is Australia's leading Photography College, a multiple award-winner providing outstanding photography specific education. For over 50 years we've been the leader in this space, and we are deeply committed to opening your eyes, broadening your thinking and expanding your creativity.

Whether you love photography as a hobby, creative outlet or you're dreaming of a career change we have the course solution for you! Our courses are delivered by photography industry experts so you learn from the best, and you can tailor your learning experience with our flexible blended learning options.

WORLD CLASS SPECIALISED FACILITIES

Our campus has been exclusively planned and designed for a bespoke learning experience. Includes high end photography studios, cyclorama, postproduction labs, high end printing area, specialised library and online resources.

GREAT STUDENT TO TEACHER RATIO

You are immersed in practical, hands-on learning environments that mirror professional practice. We provide fantastic student to teacher ratio in smaller class sizes.

LEARN FROM INDUSTRY LEADERS

Our lecturers are leading professionals highly respected and connected in the photography and digital imaging industry.

FLEXIBLE BLENDED LEARNING OPTIONS

Our specialised courses offer you blended options so you can tailor your experience: on-campus learning OR online via zoom.

Creative Photography Certificate: short course part time

Creativity, innovation and technique are the essential skills to creating great photographs. You'll find these and more in our Creative Photography Certificate.

This unique program has an emphasis on learning to photograph like a professional, with know how and no more guess work! You learn how to use your camera successfully and creatively, how to see and capture light and use compelling composition.

This is what you will learn:

Professional camera, composition & creating a photographic folio

18 sessions x 3 hrs

In this course you gain practical hands-on experience, insights and skills for creating exceptional images. You learn to use your camera for creative, emotive and dramatic effect. You learn to explore light, colour and composition, along with digital processing and enhancing techniques to make your photos arresting and memorable. You discover what it takes to effectively capture the essence of the moment and edit to select your best shots.

It's exciting, inspiring and dynamic as you learn to think like a professional and bring all your skills together to create a cohesive photographic folio.

Postproduction process & enhance digital images

10 session x 2hours (delivered via real time zoom)

You will learn in these hands-on classes to work in a professional digital environment managing your workflow, files and safeguarding your work. You use Adobe Lightroom for RAW processing and learn how to enhance your work to produce a range of aesthetic outcomes.

Location, lighting and people photography

Intensive weekend

This is your opportunity to 'learn by doing' on location in a hands-on practical workshop. You will discover what it's like to get experience shooting a series of assignment briefs with people and landscapes. You learn how to create strong visual stories and how to maximise the impact of your photos using available and reflected light. Your teacher will provide guidance and feedback throughout the workshop.

Equipment and materials

DSLR or mirrorless camera with interchangeable lens, a portable hard drive and a subscription to Adobe Creative Cloud for photographers (student discount) is all you need to get started.

Timetable and tuition fees

See separate sheet.

"I absolutely love my part-time course, because I get to work and learn from teachers who are all from amazing photographic professional backgrounds, who are highly inspirational.

Am really enjoying connecting with like-minded people, as there are students in my class who have been working as photographers and those like me who are up-skilling as an artist to become a photographer, and also people that just want to get better at their hobby.

This is just the beginning of learning how to use my camera technically and creatively. It's the best decision I've made and PSC is an exceptional College."
